### Highlights

The Kuna School District continues to grow at a rapid rate. Our patrons enthusiastically passed a 15.6 million dollar bond to build two new elementary schools and a new support services center.

The ISIMS project certainly presented a number of challenges and frustrations. However, the district has moved forward with a new SIS program and will be fully prepared to implement all components by August 2005. Although the ISIMS project was not successful, it did provide opportunity for our district to make huge gains in the development of our technology infrastructure. This has positioned the district well for future expansion in our technology network.

### Progress Towards Meeting Goals

#### 2004-05 Goals

#### Progress

District-wide, by June 2006, 80% of the total student population in grades K-3 will meet or exceed State proficiency standards in reading achievement as measured by the Idaho Reading Indicator.

The Kuna School district continues to work hard on reaching this goal. Strong progress has been made at all grade levels, but there is a concern about proficiency at third grade. Administrators and teachers continue to provide targeted intervention at this grade level to increase achievement.

By spring 2006, 85% of the total student population in the Kuna School District will meet or exceed the Idaho State Achievement Test "cut scores" for proficiency in reading, language usage, and math.

At the time of this reporting, the window for ISAT testing has not been completed. Preliminary results in reading, math, and language usage indicate all grade levels tested, except 8<sup>th</sup> grade math, are surpassing their respective proficiency cut scores for the 2004-2005 school year.

By spring 2007, 95% of the ninth graders enrolled at Kuna High School during the 2003-2004 school year will receive diplomas.

Kuna High School has implemented a number of strategies to reduce the dropout rate to reach this goal. Language and math interventions continue to be implemented for students below proficiency on the ISAT. The ELL program has introduced interventions and curriculum to address language development and academic support. Currently the class of 2007 is on target to reach a 95% graduation rate.

To improve patron communication in the Kuna School district, the district will redevelop and implement a comprehensive web-based communication framework to be fully implemented by the 2004-2005 school year.

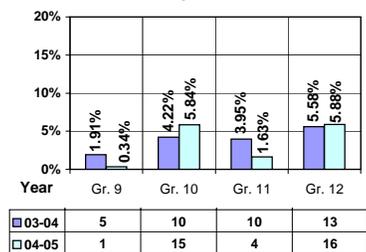

The district has hired a Webmaster to overhaul our current website making it much more user friendly and informative. Strong progress has been made during this school year. The website should be fully developed and on-line by the fall of 2005.

### Adequate Yearly Progress and Assessment 2004-05

Did Kuna Jt District make Adequate yearly progress for 2004-05? No

Percent of the 41 targets that Kuna Jt District made: 92.68%

The goal in our nation is for all students in grades 3 through 8 and 10 to be proficient in reading and math by the spring of 2014. Idaho uses the Idaho Standards Achievement Test (ISAT) and the Idaho Alternate Assessment (IAA) to measure proficiency. This report shows the percentage of students who met state goals for proficiency in reading and math.
